

Product Overview

AKW Marlbrook Wall Panels are the perfect alternative to tiles, with a water and scratch-resistant finish on both sides of the panel, and six colour options to choose from.

Designed to be durable, low maintenance, and long-lasting, wall panels are incredibly easy to install, enabling you to transform your showering or bathing area quickly.

Features & Benefits

- + Panels are finished on both sides to allow either side to be used as the face; this is more forgiving if scuffs occur on site
- + Quick and easy to install with the items in your toolbox; no specialist skills or equipment needed to install
- + Available to be purchased separately in 300mm, 600mm, 900mm and 1200mm panels which are easy to transport and manoeuvre, with each panel packaged separately
- + Also available to be purchased in a kit of a 300mm and 900mm panel, with each panel packaged separately
- + Panels offer a large surface area and can be fitted directly over tiles, making installation less labour intensive; e.g. a 1800 x 900mm shower area would require just 3 panels and relevant profiles
- + WPS plywood substrate core is bonded with a High Pressure Laminate (HPL) to give a completely waterproof surface
- + Constructed from structural-grade materials which allow fixtures such as shower seats and grab rails to be fitted securely, without impacting on weight loading
- + Multiple profiles are available for every installation challenge
- + Low maintenance solution, with no need for additional grouting

Warranty & Approvals

- + 35 year warranty

Technical Specification

Available Sizes:

- + 308mm x 2440mm x 12mm
- + 608mm x 2440mm x 12mm
- + 908mm x 2440mm x 12mm
- + 1220mm x 2440mm x 12mm
- + Square edged panels
- + High-pressure laminate (HPL)
faces on WPS plywood substrate core
- + Hard-wearing structural grade material
- + Multiple extrusions available
